CURRENT SITUATION

(Recent updates are posted at the top of Current Situation)

The Riverside City Fire department responded to a report of house on fire. In route we were given reports of victims possibly trapped inside. Upon arrival of the first in unit, they found a single story single family residence with a working attic fire. They were going into rescue mode and found the home owner fleeing the house. They confirmed with the home owner that no one else was inside. The crews attacked the fire and the fire was placed under control. However, due to extensive overhaul in the attic; the crews remained on scene for mop-up and overhaul purposes for most of the morning. The Riverside Arson Investigation Team was requested to respond. The fire appeared to start in an outside make-shift room and extend into the house and attic. At this time the fire is still under investigation. Red Cross was requested for 6 adults and 2 juveniles. They arrived on scene and introduced to the home owner. Code Enforcement was requested due to the make shift outside room. A SAVE Card was issued due to the extensive damage inside the structure. No firefighters were injured during this incident.
